PROFILE

Full Stack Engineer with 6+ years building scalable fintech, enterprise and SaaS platforms across Ireland and Europe. Deep expertise in React, TypeScript and modern frontend architecture, with a track record delivering complex financial systems, reusable component libraries, role-based platforms and data-heavy applications in agile teams. Comfortable owning frontend architecture decisions end to end, from design system to production.

CORE SKILLS

Frontend	React, React Native, TypeScript, JavaScript, Next.js, Vue.js, Nuxt.js, Expo, Vite, HTML5, CSS3, Tailwind CSS, Shadcn UI
Backend & Data	Node.js, Express, Python, Django, REST APIs, Supabase, PostgreSQL, AWS RDS, SQL
State & Forms	TanStack Query, Zustand, React Hook Form, Zod
Testing	Vitest, React Testing Library, MSW
UI & Visualisation	Storybook, AG Grid, Recharts, Three.js, A-Frame, Figma
Tooling & Practice	Git, Docker, CI/CD, Vercel, Agile, Component-Driven Development

EXPERIENCE

Full Stack Engineer, Restday

May 2026 - Present

Dublin, Ireland

- Lead the development an MVP for Restday, a wellness recovery platform based on the Burnout Assessment Tool (BAT), taking it from concept to launch.
- Developed a React Native (Expo) application backed by Supabase, using PostgreSQL, authentication and Row Level Security to secure sensitive health data.
- Implemented onboarding, authentication, BAT assessments, personalised recovery profiles, daily recovery plans, journaling, progress tracking and safety escalation flows.
- Designed the backend database schema and migrations, and defined secure handling policies for health data.
- Drove product design and UX in Figma alongside engineering delivery.

React Native, Expo, TypeScript, Supabase, PostgreSQL, Tailwind CSS, Vercel, Figma

Full Stack Developer (Contract), Flip Lingoes

Jun 2026

Remote

- Built and maintained web applications in Python and Django, delivering REST APIs and backend services.
- Designed and optimised PostgreSQL schemas and SQL queries; containerised applications with Docker.
- Worked directly with stakeholders to scope and ship features to deadline, covering testing, bug fixing and deployment.

Python, Django, PostgreSQL, Docker, REST APIs, Git

Full Stack Developer (Contract), Xace

Nov 2025 - May 2026

London, UK

- Redeveloped a banking platform in React, TypeScript, Node.js and Vite, migrating legacy functionality onto the new stack.
- Built frontend and backend features across transaction workflows, dashboards and reporting, including REST APIs in Node.js.
- Designed AWS RDS SQL databases and implemented role-based access control across the platform.
- Established a Storybook component library to standardise UI across teams.
- Wrote unit and integration tests with Vitest and React Testing Library, using MSW for API mocking.

React, TypeScript, Node.js, Express, AWS RDS, SQL, Vite, Storybook, Vitest, React Testing Library, MSW

React Developer, FinanceFair

Sep 2024 - Nov 2025

Dublin, Ireland

- Led frontend architecture for banking platforms, establishing a scalable React structure and reusable UI systems.
- Built advanced data tables, payment workflows and secure file upload/download.
- Created reporting dashboards with Recharts and delivered a reusable Shadcn UI component set.

React, TypeScript, Vite, Tailwind CSS, Shadcn UI, Zustand, TanStack Query, React Hook Form, Zod, Vitest

Vue.js Developer, Engage XR

Sep 2023 - Sep 2024

Waterford, Ireland

- Built enterprise applications supporting over 100,000 users, including event management features.
- Implemented dashboards, forms, data tables and payment workflows in Vue and Nuxt.
- Created reusable components and contributed to the shared Storybook design system.

Vue.js, Nuxt.js, Storybook, AG Grid

Full Stack Developer, Davra

Feb 2021 - Sep 2023

Dublin, Ireland

- Developed a virtual events platform and its administration portal.
- Implemented 3D interaction and spatial audio using Three.js and A-Frame, optimising rendering performance.

Vue.js, Three.js, A-Frame, JavaScript

React Developer, Snapsea

Jun 2020 - Feb 2021

Remote

- Developed features for an Instagram content rights platform, including media galleries and video playback.
- Integrated REST APIs and improved UX and scalability.

Frontend Developer Intern, Open Litter Map

Nov 2019 - Jun 2020

Cork, Ireland

- Built frontend features in Vue.js with mapping functionality using Leaflet, and a responsive UI with Bulma.

EDUCATION

Higher Diploma in Web & Cloud Development	Dublin Business School, Dublin
MA in Audiovisual Translation	Universidad Europea, Madrid
BA in Spanish & Italian	Trinity College Dublin
